

Project Agreement

Niamana Class-Room Construction 2008

#1 Framework

This project is based the Partnership Agreement between RDIC and Sterntaler from 1st October 2008 and the Mali Initiative's Needs Assessment from February 2008.

#2 Objectives

This projects aims to construct two much needed class-rooms in Niamana as published in the Construction Plan. Overall aim is improved education in both quantity and quality.

#3 Funds

Required funds are described in the published Cost Estimate by the Mayor of Niamana. Sterntaler has therefore raised 20.000€ plus contingency.

#4 Timing

Construction is planned in October 2008.

#5 Ownership

The class-rooms will be owned by the Niamana community.

#6 Contribution and Participation

The Niamana community will participate and contribute in/to the construction. The importance of this has been expressed in a letter to Niamana's mayor.

#7 Sustainability

Sustainability of the class-rooms and education quality is solely the responsibility of the Niamana community and its Mayor. Sterntaler and RDIC as part of the Mali Initiative will assist the community in further improvements, e.g. considering teacher training, continuing visits etc.
